Adopt-a-Job

Those of you who have been through one or more Marching Band seasons know that we couldn't get the job done without the thousands of volunteer hours put in by parents and family members. For those of you who are new to Marching Band, volunteering to help is a great way to get to know everyone and support your student in the band. The jobs listed below are just a few of the opportunities that you will have to help during band season. There will be another volunteer list coming out in the fall.

Please read through this list of volunteer jobs and try to help with at least one of them. The only way everything gets done is through your active participation. **Do not assume that someone else will do the job!** Your students need your support.

None of these jobs requires **ANY** prior experience. There is always someone willing to "show you the ropes."
